## Post-Screening Discussion Starters

Why does health care cost so much in the U.S.?

What is a health care “transaction” & what are the costs involved?

How has the Affordable Care Act affected prices?

What complications does our current health financing system cause for health care providers?

How much does the cost of drugs contribute to the problem?

How much profit are health insurance & drug companies making? Why does that matter?

What policies do you know of that have successfully helped keep health costs down?

With health care so expensive, how healthy are Americans?

What are some of the barriers to healthcare reform in America & how do we overcome them?

How do other countries manage their systems of health care? What works and what doesn't?

How does a single-payer system lessen the cost of providing care?

How and when will universal healthcare be accepted by the U.S.?

What can an individual do to advocate for health care justice and reform in the U.S.?
